"set time to six eight"	<i>time signature</i>
"metronome" (toggle) / on / off	<i>click</i>
"loop on / loop off"	<i>not a toggle - say on/off</i>
"undo / redo"	<i>undo five times, undo all</i>
"metronome off play"	<i>chain: does both</i>

NAVIGATION & LOOP

"bar sixteen / go to bar sixteen"	<i>jump to a bar</i>
"back four bars / forward two"	<i>relative move</i>
"jump to start"	<i>playhead to 0</i>
"loop from bar four to eight"	<i>loop region</i>
"loop eight bars"	<i>N bars from here</i>
"double / halve the loop"	<i>loop length</i>
"launch quantize to one bar"	<i>launch quant</i>

SELECTION (SAY 'AND' BEFORE THE LAST)

"select drums / select track two"	<i>select one</i>
"select track" then say the numbers	<i>waits like 'add device'</i>
"four ... six ... and eight"	<i>list over pauses; invalid ignored</i>
"select tracks two three and four"	<i>multi in one breath</i>
"include bass / also select keys"	<i>add one to selection</i>
"deselect bass / exclude drums"	<i>remove one from selection</i>
click a track box in the Mixer	<i>adds it to the selection</i>
"next track / previous track"	<i>move selection</i>
"go to clip three"	<i>select slot on this track</i>
"deselect / select none"	<i>clear whole selection</i>

MIXER (NO NAME = WHOLE SELECTION)

"solo" (exclusive)	<i>solos only the selection</i>
"mute" / "unmute"	<i>not a toggle</i>
"arm"	<i>arms the selection, disarms rest</i>
"arm drums and bass" / "arm 1 2 3"	<i>arm several</i>
"arm all" / "solo all" / "mute all"	<i>every track</i>
"unsolo all / arm none / disarm all"	<i>all off</i>
"mute everything but drums"	<i>inverse</i>
"volume up/down on [track]"	<i>fader nudge</i>
"set volume fifty / reset volume"	<i>fader % / 0 dB</i>
"pan left / right / center"	<i>pan</i>
"monitor off / auto / in"	<i>input monitor</i>

SENDS / RETURN & MASTER

"select send a / the reverb return"	
"mute send b / solo the reverb send"	
"turn down the master / master to fifty"	
"audio from track five"	<i>input = track 5</i>

TRACKS & DEVICES

"change color to blue"	<i>color the selection (17)</i>
"change color swag to blue"	<i>color a named track (no 'of')</i>
"rename drums -> say any name"	<i>rename a track</i>
"new audio track / new midi track"	<i>create</i>
"delete track two"	<i>undo restores</i>
"put operator on drums / add serum"	<i>load a device</i>
"add instrument" then say the name	<i>device-only listening</i>
"bypass reverb on drums / enable it"	<i>device on/off</i>
"remove reverb / list devices on drums"	

NAVIGATE (NOTHING PLAYS)

"next clip / previous clip"	<i>move slot to record</i>
"clip up / clip down"	<i>same, up/down a row</i>
"next scene / previous scene"	<i>move the row (no launch)</i>
"go to scene 5"	<i>jump to a row (no launch)</i>

FIRE (THESE LAUNCH PLAYBACK)

"fire clip / fire this clip"	<i>fire the ONE clip you're on</i>
"fire all clips / fire the row"	<i>fire the whole row (scene)</i>
"fire this scene / launch scene 3"	<i>fire a scene row</i>
"fire next scene / fire previous"	<i>move a row + fire it</i>
"fire clip two on drums"	<i>one clip on a named track</i>
"go to next scene and fire clips"	<i>move a row + fire clip</i>
"go next and fire all clips"	<i>move a row + fire row</i>

SCENES & STOP

"new scene / duplicate this scene"	
"stop all clips"	<i>stop everything</i>
"stop drums / stop these"	<i>per-track</i>
"delete this clip / delete scene three"	
"name this clip main riff / scene verse"	<i>name it</i>

RECORD / TAKE

"redo take / scrap the take"	<i>delete clip + re-record</i>
"keep that"	<i>stop session record</i>
"keep last take"	<i>comp: keep newest take lane (Bridge)</i>
"capture that / capture and make a scene"	<i>Capture MIDI</i>
"arrangement record on / off"	
"automation on/off / re-enable automation"	

MARKERS (BRIDGE)

"drop a marker / called chorus"	<i>locator</i>
"mark this the drop / name this marker"	
"next marker / previous marker"	
"go to the chorus / go to marker two"	<i>numbers resolve</i>
"delete this marker / delete marker three"	

ASK ('SPEAK ANSWERS' TO HEAR)

"what's the tempo / time signature"	<i>answer</i>
"how many tracks / scenes"	
"read me the tracks / what's selected"	
"what's armed / soloed / muted"	
"what's on this track / what bar"	

M2TM COMPOSE (CALIBRATE BOX ONCE)

"compose c major g major a minor each one bar"	<i>chords -> M2TM</i>
"a c major chord for one bar then d minor for two"	<i>per-chord durations</i>
"notes c d e g each one beat"	<i>melody</i>
"in the key of d major / c major over g"	<i>key / slash chord</i>
"smooth"	<i>nicer voicings</i>
"strummed ... / arpeggiate ..."	<i>strum / arp</i>
"make a midi clip on drums, c major g major each bar"	<i>hands-free clip</i>
"type it / clear text / calibrate"	<i>M2TM box</i>

EDITING (KEYSTROKES — LIVE FOCUSED)

"split at playhead / consolidate"	
"duplicate this clip / quantize"	
"group"	<i>groups Live's current selection</i>
"session view / arrangement view / save"	

APP & FOOTER BUTTONS

"pause say so" / "resume say so"	<i>pause / resume listening</i>
"bye computer" / "hey computer"	<i>same (goodbye / hello cue)</i>
Macros	<i>build macros; defaults included</i>
Commands	<i>searchable; click again to close</i>
Words	<i>rebind a command word (see below)</i>
Settings	<i>speed, mic, wake, 13 themes</i>
Help	<i>quick-start tutorial</i>
"panic / again / surprise me"	<i>fun</i>

COMMAND WORDS (WORDS BUTTON)

Type your own word for a command,
e.g. "halt" = Stop. Untick 'keep
default' so the old word stops working.

SETTINGS HIGHLIGHTS

Response speed: Turbo / Balanced / Accurate	<i>model</i>
Wake word: any phrase ("computer ...")	<i>studio</i>
Push-to-talk (hold F8) · Auto-arm on select	
Live mixer strip · Verbose (log + type box)	
Sensitive mode (default OFF) · gain · AGC	
Unfinished cmd waits ~3s ("go to bar"... "ten")	
End a held command by saying "please"	

SPEED / ACCURACY (AUTOMATIC)

play / stop fire near-instant (keyword spotter)
Lists wait: "and" ends them; slow speech
 stitches ("new audio" ... "track")
Numbers fixed in context (to->2, ate->8)

13 THEMES (SETTINGS > APPEARANCE)

Dark · Midnight · Light · High Contrast · Warm
Nord · Dracula · Solarized · Rose · Forest
Cyberpunk · Mono · Ocean
